

Gloryful's Tale

Gloryful

Gloryful - together we fight
Side by side, for glory and pride
We walked through hell and back again
United we stand
No one will cut this band

Ride with us into the battle
We're immortal, undefeated
Steel meets steel, all through the night
Like thunder we will rise

Hail, hail, Gloryful's tale
We bring the light
Into the dark
Wherever we ride
It's metal we bring

Side by side - we fight
My brothers, we will ride
Side by side - we fight
And we're never gonna die

Heavy metal - the flame still burns
Watch out posers
Cause the tables have turned
One of a kind, one of a piece
Like thunder through the night
