

## Heart of Evil

Gloryful

Concealed in the depth  
Trapped under remains  
Swallowed by the dark  
The blackness in us stains

Rising up in every man  
We're just too blind to see  
Taking control  
Poison our souls  
And all the hate breaks free

The heart of evil  
Deep inside Heaven's end  
Breaking our mind  
The heart of evil  
Heaven's end  
Breaking our lives

Conjured by the beast  
The horror of the sea  
Spreading the disease  
Cry out all the fear

No more strings  
No walls, no rules  
The nightmare has begun  
And no constraints  
All hell breaks loose  
For all this time  
Forevermore
