

My Sacrifice

Gloryful

Burn - tear down the wall
That hold us back, bring them to fall

Burn - feel the heat
Of endless fire, follow my lead

For she is my witness
I'm not afraid
There's no fear, I swear by sea and sky
Welcome the cold darkness, embracing death
I give my life and I'm ready to die

Fire - feel the flame
In goddess eyes we're all the same
Steel - always sincere
In iron lies truth that I hold dear
