

## Sinners & Saints

Gloryful

Step into the dark  
Feel the magic, feel the heat  
While her spirit rises  
Heaven cries and bleeds

The cult still resists  
Everywhere across the land  
In heart, in mind and soul  
It's steel that can't be bend

We will follow  
Lead us the way to you  
We are serpents  
Staying by your side

We're sinners, we are saints  
Goddess blood runs through our veins

Oh, oh, oh  
We're sinners, we are saints  
Oh, oh, oh  
When sinners and saints follow  
The path of vengeance

Praise her holy name  
Bringer of light  
Conqueror of the dark  
Bringer of salvation  
Our hope for a new start
