

When the Union Calls on Me

Gloryful

Wake up from the dead
Guide us to destiny
Fill their hearts with fear
Bring them darkest day

Like thunder from the sky
Like a hammer hits the ground
Iron is back again
Listen to the sound

Side by side
Come, raise your voice
Lead us to victory

Our forces united
Fighting the dark
When the union calls on me

Rise up from your grave
To take over the crown
Overthrown the throne
When the sky is falling down

It's time to break the chains
Time to tear down the walls
Longing for revenge
And the tragic kingdom falls
