

i always see the light way before the dark
 u always see the end way before the start
 i've been trying & finding that things going right
 aren't as simple as everyone told me they would be
 i know that u miss me
 i'm sorry i'm busy
 & don't make the time
 for the things u ask from me

out of breath,
 out of time,
 is it ur turn?
 is it mine?
 i can't sleep tonight
 i can't sleep tonight, no
 is it fine, if we find,
 that in time this isn't right
 i can't speak tonight
 i can't speak tonight, no

just make me feel special
 and make me feel loved
 make me feel something
 lately life's made me numb
 i just want to hold u
 for just long enough
 so u don't get tired of me telling u
 i love u so much

if i take care of u
 who's gonna take care of me
 i could just say take care and leave
 but i love how u stare at me
 i stay cuz i'm scared to leave
 i'm not prepared to be
 lonely without u see
 that just won't feel right
 i need u in my life, so

out of breath,
 out of time,
 is it ur turn?
 is it mine?
 i can't sleep tonight
 i can't sleep tonight, no
 is it fine, if we find,
 that in time this isn't right
 i can't speak tonight
 i can't speak tonight, no

just make me feel special
 and make me feel loved
 make me feel something
 lately life's made me numb
 i just want to hold u
 for just long enough
 so u don't get tired of me telling u

i love u so much

so don't make me, no
don't make me go
don't make me

in a city i don't know
hit me 3 times 'fore the show
i need sleep tonight
u'll be in my dreams tonight, tho
