Go Radio

It's late, so lets stay out tonight  
It feels just like  
The time is right  
And I know you've heard

And she's acting like it's hide and seek  
From the passenger seat  
It's so absurd

(Yeah we had a really good night last night...)  
(So you fucked her?)

Hollie Ollie Oxen Free  
Won't you run away with me  
And we can leave this place behind

And you could sing a lovers song  
And I'd chime in the whole night long  
I'll wait for you to see it's only you and me  
Then we're gone

She thinks the world is over now  
We'll make it up somehow  
Under these covers

(My girlfriend called me a pedophile the other day.)  
(That's a really big word for a seven year old.)

Hollie Ollie Oxen Free  
Won't you run away with me  
And we can leave this place behind

And you could sing a lovers song  
And I'd chime in the whole night long  
I'll wait for you to see it's only you and me  
Then we're gone

Then we're gone
