Singing With The King

Go Radio

Don't take another day away from me Cause I don't got many as it stands Here on the rooftop screaming like the world stopped Another cigarette for both of us hold my hand I'll take us both to the top of the world if I can

Cause mama it's ok, tonight I'm going to sing with Elvis And we will sing a couple songs just for your ears so sing alon g and hey If I go down in the quicksand don't grab my hand Just play me as loud as you can Cause tonight I'm singing with

And daddy's sitting in the corner with Cash when Mr. Moon picks up the beat I hear the sound of someone warming the start while they wait f or me And Freddie says that I can stay, that I don't have to be afrai d this time The angels filling up the place and Carly's walking she's the f irst in line

Remember the days we thought we were golden and that all these nights were ours Remember my face, remember the rooftops Do you remember the stage, when all of it's broken not to show your favorite scars A smile on your face, we'll count only our stars
