

# Darker Side Of The Moon

Goapele

When you see me standing in here  
'Cause I didn't walk alone  
There are pieces of you landing in here  
Somehow to make me whole

'Cause you  
You're the darker side of the moon  
Always in the shadows  
Leaving me to shine, shine, shine

You're the one who carried me through  
Held me in the sky  
Leaving me to shine, shine

Any time you pushed me  
When it felt like too much  
I know it made me grow  
And looking from the distance  
At a person who, who I wouldn't know

But you  
You're the darker side of the moon  
Always in the shadows  
Leaving me to shine, shine, shine

You're the one who carried me through  
Held me in the sky  
Leaving me to shine

From the stretches of the world  
And more perspective than I wished for  
You told me that there is more  
Than what a pleasant change

You never question worth  
You made a path wherever I go  
Giving far more than I asked for  
Oh you

You're the darker side of the moon  
Always in the shadows  
Leaving me to shine

You're the darker side of the moon  
Always in the shadows  
Leaving me to shine

You're the one who carried me through  
Held me in the sky  
Leaving me to shine, shine, shine
