

## No Regrets

Gob

All the things that I've regretted and all the place  
I was headed with you I wanna pursue even though  
You're not a go-  
getter you could show me, you could do better you'll see,  
Take a chance on me but I know,  
I know this feeling that I have inside of me in me,  
My belly's burning and it's turning don't you see I'm upset  
And yet no regrets if there ever was a time when i could go bac  
k  
And make it all fine with you, I wanna pursue  
All the blood and tears I've sweated all the work,  
We can't forget it you'll see, take a chance on me  
All the things that I've regretted and all the places  
I was headed with you I wanna pursue  
No more standing around I've said it get off your ass  
And we'll go get it you'll see take a chance on me
