

# Rotten In Peace

Godgory

Gonna make you scream in pain  
Gonna make you fear my name  
I'm gonna make you meet your death  
I am gonna blow a hole in your head

You are scum and nothing worth  
I hate mother who gave you birth  
You're so disgusting it makes me shiver  
I am gonna blow a hole in your head

Buried in the ground with a bullet in your head  
We not gonna cry we just laugh instead  
My satisfaction increase when you rotten in peace

You are now gone from this earth  
We are now free from your curse  
Everyone knew that you were insane  
Another human is now gonna fear my name

Buried in the ground with a bullet in your head  
We not gonna cry we just laugh instead  
My satisfaction increase when you rotten in peace
