

10.000 Angels

Godley & Creme

10,000 angels runnin' after you
10,000 devils close behind
10,000 reasons
For doing what is true
Possess your body and your mind
I'm looking for
10,000 angels
Riding in the sky
10,000 angels
I saw them
I saw them
I saw them go by
10,000 angels riding on the storm
10,000 angels
I saw them
I saw them
I saw them this morning
10,000 angels runnin' after you
10,000 devils close behind
They'll tell you stories
But none of them are true
They stop your body and your mind
Looking for
10,000 angels
One holy fire
10,000 angels
I saw them
I saw them
Don't say I'm a liar
10,000 angels
All dressed in white
10,000 angels
I promise it wasn't
A trick of the light
I saw them, I saw them, I saw them
I saw them tonight
Tonight
I saw them tonight
I'm looking for
10,000 angels
Choirs in the night
10,000 angels
What a glorious sight
10,000 angels
Playing gold guitars
10,000 angels
I saw them
I saw them
They used to be stars
10,000 angels runnin' after you
10,000 devils close behind
10,000 reasons for doing what is true
Possess your body and your mind
I saw them, I saw them tonight
I saw them, I saw them comin
