

## Can Do That

Golden Earring

Well take a look at me now here  
Another sucker ruining the atmosphere  
Gotta be the story of my life  
From the very embryo start  
It's been piles and piles and piles of goo goo  
How about you, how about you  
No one take notice of a little thing  
Start to grow into a big thing  
Bigger than anything  
Well, you can join the commando's  
Be just like a little Rambo  
You can challenge the world  
And you'll never know that a wind will blow  
And it's gonna be cold  
But you'll always keep on singin'  
Like you've been told

You can do that, you can do that  
Yeah! You can do that  
With the power of your soul, just go ahead

Gotta get back on top again  
Well, meanwhile - broke - busted  
Hungry and not trusted  
Thanks for lousy deals - tell me all about it  
No, stop! I wanna keep my ears clean  
I got goose bumps in the wrong places  
Screaming - looks like the vultures are gathering  
Well no matter how thin that string, I wanna hold on to that thing  
They say when the goin' gets tough the tough get goin'  
But can you prove it baby?  
The fairytale - wisdom - oxygen - give me a breath of your precious oxygen  
Precious, precious oxygen...
