

## Fluid Conduction

Golden Earring

I've been sleepin' all day, slummin' all night  
In a 44 hour sedation  
Since the day you cut me outta your life  
The night I killed your patience

Always try to lie to you  
The truth is that I love you  
Need you more than anything  
Without you I discover  
I'm a maniac and a menace  
Headin' for destruction

Your lips I miss,  
Your tears, your hips  
Your piss, your blood, the way you function  
Maybe I should thank some God  
For your amazing fluid conduction

It was Max, the king of facts  
He made me steal for your number  
Promised not to tell on him  
But you know me, I'm a sucker

Your lips I miss,  
Your tears, your hips  
Your piss, your blood,  
The way you function  
Maybe I should thank some God  
For your amazing fluid conduction
