

I've Just Lost Somebody

Golden Earring

She came down from far away and smiled at me
In one moment I found out how love can be
Then I realized that she had gone again
I've just lost somebody
A-ha, please let me dream

Though I know that love ever happened this way
I'll be here untill she will return one day
Here low, I am dreaming, she must appear again
I've just lost somebody
A-ha, please let me dream

She came down from far away and smiled at me
In one moment I found out how love can be
Then I realized that she had gone again
I've just lost somebody
A-ha, please let me dream
