

## If You Leave Me

Golden Earring

Baby if you leave me  
I won't know what to do  
So darling do believe me  
Oh my heart belongs to you  
I know they say a lot of things  
About me and what I've done  
For baby that's our love and now  
My love has changed and you know how  
Think what you do before you treat me cruel

Baby if you leave me  
You'll find out that you are wrong  
But though you still deceive me  
You will find my love is strong  
I know they say a lot of things  
About me and what I've done  
For baby that's our love and now  
My love has changed and you know how  
Think what you do before you treat me cruel

Honey I need you  
Every day I need you  
It's like a thrill  
So please don't be so mean
