

Space Ship

Golden Earring

I remember it happened, late one night
No moon, no stars
No sound, no light
I was young and scared
And afraid of the dark
When I saw that space ship
Shaped like a heart

When the years go by, just like a shot
I was way too busy, growing up
I was datin' girls, so I forgot
All about that space ship, shaped like a heart

Well I woke up one morning, feelin' fed up and lost
Runnin' out of luck, desperate for love
And there she was, I kid you not
That space ship, shaped like a heart

Blindin' my eyes, cloudin' my sight
Givin' me hope it would be all right
Space ship shaped like a heart
I saw it in your eyes, and in the way you smile
Right from the start

Space ship shaped like a heart
Don't wanna ask me why
Don't wanna say goodbye
To that heart in the sky
I was standin' by the window
We just made love
I was comin' down
From the push and shove
I was lookin' up
I saw a spark
It was a space ship
Shaped like a heart
