

Turn The World Around

Golden Earring

I believe that all around
We're all waiting for a sound
That will break the barriers down
And will make us all feel better
After all the madness' gone
After all I feel it's coming
There's a slogan on the wall
Like a finger on a trigger
There's a truth behind it all
I believe it's getting bigger
But it's all up to you, and it's all up to me
Yeah it's all up to me

Your sweet talking babe, won't turn the world around
Meet me underground, turn the world around
Climb a mountain yeah, cry me an ocean too
Turn the world around, turn the world around
There's no problem babe, you're right, I'm wrong
Let's strike a bargain, 'cause together we're strong

All your sense, all your love
Can't stop the fire from above
Don't you know, when I go
You're gonna go too
Let's turn the world around

Darlin' daughter, I've been told
Gettin' younger, turnin' old
Hides a moment, caught in time
In a mirror that's gone blind
I can see inside my minds' eye
We may get the future right
There's a slogan on the wall
Like a finger on a trigger
There's a truth behind it all
Everyday it's getting bigger
But it's all up to you
And it's all up to me

Don't say impossible, when it's possible
We're responsible, let's turn the world around
Only one light to follow, only one dream to share
Let's strike a bargain, it's gonna get us there

All your sense, all your love.....
