## **Weekend Love**

## **Golden Earring**

The sooner it will be the better Gonna have to see you right away It's been a long time since the day I met her I can't handle being without her one more day Gonna get the feeling that I'm going insane Feel so stupid using these old cliché's You better hurry up Baby, I ain't lying We're down to nothing but a waste of time Still remember everything she said Make no promises and make no debts All I want is just a one day weekend love

She sips her wine without a flinching She's in control of it all the way Looks so good, pretending that she's listening By the time I fall asleep, she's gone away She's got no mercy on a jealous heart And she said it all right from the start Make no promises and make no debts But I love that lady, I got to confess I want more than just a one day weekend love All she wants is just my one day weekend love I want more than just a one day weekend love All she wants is just my one day weekend love
