

# I Believe

Goldfinger

I haven't had this feeling lately  
I want to get up and go  
It's like I'm thinking crazy thoughts and  
Sometimes I just don't know  
Don't make me start without you  
Cause I got nowhere to go

'Cause I believe you  
When you say you're coming over today  
I believe you  
When you say you're coming here to stay

Now if you think I'm lying to ya  
If you're having your doubts  
Go ask all of my friends now if ya  
Wonder what I'm about  
If ya even think about me  
I hope that it's all good

I think I've waited long enough now  
I think I'll get up and go  
You think I'm just a game you're playing  
I'm at an all time low  
If you make me start without you  
I might just not show

--with me  
can we get along  
we only have one day  
I feel as if I just can't sleep  
I'll come another time...
