

As soon as we arrived I expressed my concern
I might have known I should, should have learned
Faded photos, a fool at each turn
It seemed to me this trip, that we have been burned

Find me some time to find a way out of here
I'd be inclined to walk my way home
Find me a plane I'll fly my way out of here
We were so blind to come here at all

Along came Insomnia
As if this week wasn't dragging on enough
One might reflect upon me a
It was such a relief to leave this ride on and on

Find me some time to find a way out of here
I'd be inclined to walk my way home
Find me a plane I'll fly my way out of here
We were so blind to come here at all

No way out
No way out
No way out for me, and the girl

Find me some time to find a way out of here
I'd be inclined to walk my way home
Find me a plane I'll fly my way out of here
We were so blind to come here at all

Find me some time to find a way out of here
I'd be inclined to walk my way home
Buy me a plane and I'll fly my way out of here
We were so blind
