

# Ping One Down

Gomez

We'll return to the ocean  
Ride the tide again  
Test the water, jump right in  
And try to swim

So ping one down  
Let it sink  
Sink on down  
Like heavy metal

We should take off the lotion  
Let the sun shine in  
Admire the holes with shaded eyes  
And fry again

And ping one down  
Let it sink  
Sink on down  
Like heavy metal

Ping one down  
Let it sink  
Don't pounce around  
Like poor old men

Color clean  
This sterile scene  
Move as we please  
No use in complaining

Purify now  
Saints alive  
We're all deprived  
Be careful what you're saying

We've been on a safari  
Just collecting skin  
Head to toe in camouflage  
But high again

So ping one down  
And let it sink  
Sink on down  
Like heavy metal

Color clean  
This sterile scene  
Move as we please  
No use in complaining

Purify now  
Saints alive  
We're all deprived  
Be careful what you're saying

Careful what you're saying  
Careful what you're saying
