

# Over You

Goo Goo Dolls

Memories that can't replace  
The feeling of you next to me  
Pictures of your smiling face  
These old mistakes feel new again

(Mm-mm-mm)

(Mm-mm-mm)

Haven't seen the sun in days  
Oh did you take it away with you  
Might have gone our separate ways  
But every night brings me back to you

When you were mine  
Oh where did the time go  
I acted like a blind fool  
There's only one truth  
There's only one you  
There's no way out  
There's just no over you

(Mm-mm-mm)

(Mm-mm-mm)

How long has it really been?  
Oh time is such a funny thing  
Remember what you think we had  
Oh don't forget the good times with the bad

When you were mine  
Oh where did the time go  
I acted like a blind fool  
There's only one truth  
There's only one you  
There's no way out  
There's just no over you

I finally understand it all  
The wrong, the right, the end, the fall  
Love is love and nothing in between  
And I make my apology  
'Cause without you there is no me  
Love is love and your love's all I need

When you were mine  
Oh where did the time go  
I acted like a blind fool  
There's only one truth  
There's only one you  
There's no way out  
There's just no over you

When you were mine  
Oh where did the time go  
I acted like a blind fool (there's just no over you)  
There's only one truth  
There's only one you

There's no way out  
There's just no over you
