## **Stop the World**

Goo Goo Dolls

You need someone to hold you You need somethin' that you ain't been getting Yeah, I could be the one To tell you what to do, but it don't mean nothing And you're holding on forever But that something just ain't true I'm just like you And I know It's what I'd do Here I go

Cause I couldn't stop the world, cause I loved you I couldn't stop the world, and I don't want to I couldn't stop the world, and I won't Cause it ain't enough

You had another bad day You let me know that you just can't take it I've given up on you You live in truth and I know I can't fake it

Cause the stars you see on dirty sidewalks And they ain't for wishin', ooh They don't come true And I know, it's what I'd do Here I go

Cause I couldn't stop the world, 'cause I loved you I couldn't stop the world, and I don't want to I couldn't stop the world, and I won't Cause it ain't enough

Am I too young for the world? I'm not too young for the world And I can't change for the world (I don't need to stop the world) 'Cause I don't care for the world (I'm too young, I'm too young) I don't make sense to the world (I don't need to stop the world) (I'm too young, I'm too young)
