A E Bm D
1. She's got a smile so sweet; it's every little thing from her hair down to her feet

A E Bm D
Out of the magazine, and I seen her on the TV

A E Bm D
I love the songs she sings; cause when I turn around it's like she's sing in to me

A E Bm D
And every word she means; like it could be about me (it could be about me)

A E
R: She sounds to me

Bm D
She sounds like sex on the radio

A E
I love to hear her scream

Bm D
And when I push play she's screamin in stereo

A E
Oh oh oh oh oh

Bm D
She sounds like sex on the radio

A E
Oh oh oh oh oh

Bm D
She put sex on the radio (sex on the radio)

2. I knew that we would meet; at one of those shows they do for the radio
And when she looked at me; all I said was hello (all I said was hello)
I took her out to eat; cause we were in a city that neither one of us knew
We never went to sleep; cause when the sun came up, we knew that we would have to go

R: She sounds to me... (2x)

A
I've gotta admit, this feelings legit
E
I don't wanna stop and she don't want me to quit
Bm
But she gets a little nervous with what we do,
D
Scared what they would say, what they would talk about if they knew

A
Heard her sing a song
Yeah, I knew that she would write about
E
Saw her in a magazine; I knew she could keep it quiet
Bm
Keep it in the sheets, the radio the beats
D

Between you and me, we'll throw away the key

R: She sounds to me...
