

Things to Make and Do

Good Shoes

I'm loosing all my memories
I'm standing close to an edge
I'm at a loss for conversation
With people I've never met

I stop traffic

I travel on public transport
I don't agree with cars
Private education makes me sick
Whatever happened to equality

And I, got a tan from my TV

Do you, believe, everything your told?
I don't! do you? I, want things to make and do
