

## Balloon?

Goon Moon

Can we get up and take a ride?  
I really need to get some things off my mind  
I wanna live on top of the sun  
Don't want to see the dark with you or anyone

Stick me up in the sky  
It won't make a difference if we live or die  
Tell me jokes I'll pretend to laugh  
I'm really sure it will be a big gas

I gotta get out, I gotta get out of here  
Soon

Does anybody got a balloon?  
I gotta get out of this room now  
Does anybody got a balloon?  
I wanna float away with you

Now you're stuck with the slack  
You better watch it cause now its coming back  
After all it doesn't matter any more  
I gave it away and I got back four

Does anybody got a balloon?  
I gotta get out of this room now  
Does anybody got a balloon?  
I wanna float away with you

Can we get up and take a ride?  
I really need to get some things off my mind  
I wanna live on top of the sun  
Don't want to see the dark with you or anyone

Stick me up in the sky  
It won't make a difference if we live or die  
Tell me jokes I'll pretend to laugh  
I'm really sure it will be a big gas

I gotta get out, I gotta get out of here  
Soon

Does anybody got a balloon?  
I gotta get out of this room now  
Does anybody got a balloon?  
I wanna float away with you
