## **Dehumanization**

## Gorefest

Hail the dawn
Of the dying nations
You learn to love
So well
Crawl along
Without expectations
The golden age
of dehumanization!

If you live like a number You die like a number!

You're breathing Recycled air a struggling on borrowed time

Hail the dawn
Of the dying nations
You learn to love
So well
Crawl along
Without expectations
The golden age
of dehumanization!

If you live like a number You die like a number!
