

Nothingness

Gorefest

An ugly race - no identity
A quest for change - your history
Empty eyes - vacant mind
I'll close the door - leave you behind

All I see - fixed beauty
You all possess - the great nothingness

You think of reasons you'll never find
You look for help - you are blind
I read your thoughts, dim & slow
I see your neon - it says go

All I see - fixed beauty
You all possess - the great nothingness

You count your time, your time is through
I just closed the door on you
