Nothingness

Gorefest

An ugly race - no identity A quest for change - your history Empty eyes - vacant mind I'll close the door - leave you behind

All I see - fixed beauty You all possess - the great nothingness

You think of reasons you'll never find You look for help - you are blind I read your thoughts, dim & slow I see your neon - it says go

All I see - fixed beauty You all possess - the great nothingness

You count your time, your time is through I just closed the door on you
