

# The Mass Insanity

Gorefest

Your mind is overtaken  
By the ignorance of mankind  
Stop thinking about your future  
Just living for today  
Living for today

But what's the point of your life  
When you cannot think, just follow rules  
When emotions are based on hatred  
The truth upon lies

The downfall of humanity  
Is caused by mass insanity  
Neglecting of self consciousness  
Leads to self-destruction

The killing of our environment  
Means the end of our existence  
You had your fun, your game to play  
So it's only you who is to blame  
It's only you who is to blame

The downfall of humanity  
Is caused by mass insanity  
Neglecting of self consciousness  
Leads to self-destruction

You live in fear, it's now too late  
Your future has been written  
Your life will never be the same  
Though it's only you who is to blame  
It's only you who is to blame
