

Dreams

Gorgon City

Here in the morning my eyes catch a halo
Heavenly bodies drop where the light flows
I do imagine there's life out the window
We stay safe on the inside, nowhere we have to go

And it feels so good
Like I'm in a dream
It's like I'm in a dream

Don't it feel so good?
Like we're in a dream
It's like we're in a dream

And it feels
And it feels

Like we're in a dream
Like we're in a dream
Like we're in a dream
Like we're in a dream
Like we're in a dream
Like we're in a dream

Tumbling, calling awake in the shadows
Somebody's calling from somewhere I don't know
We've been keeping the schedule, the time that we borrowed
I'm heading back in, the soul leave tomorrow

Don't it feel so good?
Like we're in a dream
It's like we're in a dream

And it feels
And it feels

Like we're in a dream
Like we're in a dream
Like we're in a dream
Like we're in a dream
Like we're in a dream
Like we're in a dream
