

Oxygen

Gorgon City

I keep you close, but not too close, baby
'Cause I've learned my lessons lately
But when you leave, I'm fallin' deeper
The air in my lungs gettin' weaker

And you got me doubtin' myself
But I know there's nobody else
And you got me wishin' again
Is it too late to be left wondering?

You are my oxygen
I can't stop breathing you in
I'm breathing you in
I can't stop breathing you in
You are my oxygen
I can't stop breathing you in
I'm breathing you in
I can't stop breathing you in
I can't stop
I can't stop breathing you in
I can't stop
I can't stop breathing you in
I can't stop
I can't stop breathing you in
I can't stop
I can't stop breathing you in

What would it take to be the last one?
Bring back to life all that we lost
But now I know it won't be easy
I need you here to complete me

And you got me doubtin' myself
But I know there's nobody else
And you got me wishin' again
Is it too late to be left wondering?

You are my oxygen
I can't stop breathing you in
I can't take life
I can't stop breathing you in
You are my oxygen
I can't stop breathing you in
I'm breathing you in
I can't stop breathing you in
You are my oxygen
I can't stop breathing you in
I'm breathing you in
I can't stop breathing you in

Live in doubt
I know that I can't live without
Live in doubt
I know that I can't live without
You are my
You are my oxygen
I can't deny

I can't stop breathing you in
