

Smoke

Gorgon City

Come lift the smoke from my eyes
Let's see the sun in the sky
Cause I've been wasting the time
When you've been right by my side
Come lift the smoke from my eyes
Let's see the sun in the sky
Cause I've been wasting the time
When you've been right by my side
Come lift the smoke from my eyes
Let's see the sun in the sky
Cause I've been wasting the time
When you've been right by my side
Come lift the smoke from my eyes
Let's see the sun in the sky
Cause I've been wasting the time
When you've been right by my side

Come lift the smoke from my eyes
Let's see the sun in the sky
Cause I've been wasting the time
When you've been right by my side
Come lift the smoke from my eyes
Let's see the sun in the sky
Cause I've been wasting the time
When you've been right by my side
Come lift the smoke from my eyes
Let's see the sun in the sky
Cause I've been wasting the time
When you've been right by my side
