

# The Slum Of The Wretched Creatures

Gory Blister

stone

a small stone in the past  
forgotten weird dust  
to the evil light breed  
provided their needs

slow ancient living masses of involuted shapes  
dominates this planet with no mercy, cruelty and pain

so huge and wicked  
they eat their companion's flesh  
horrible creatures  
bringers of raw devastation

I must exterminate - Evolution  
I will extinguish all - Wicked motion  
I cannot save this world

And let mine burn through millions ages  
With my breeding darkness self

Cold winds, shadows black  
Embrace them all  
This is the slum  
of the wretched creatures

Slum  
upcoming downfall  
soon they will crawl  
this evil light breed  
will starve and freeze

fiends  
they will suffocate - Involution  
they must dehydrate - inverse motion  
they cannot save their lives

And let mine burn through millions ages  
With my breeding darkness self

Cold winds, shadows black  
Embrace them all  
This is the slum  
of the wretched creatures

cold winds, black dust, suffocation

descend and possess, clear the slum of the wretched creatures  
exterminating, extinguishing, suffocating, dehydrating, annihilating
