

Don't Get Excited

Graham Parker

There is always some advantage to be wielded and brought to bear

It's a lonely occupation keeping others out of your hair
Fingers on all the switches talk in whispers talking soft
You know all my favourite bitches you know what gets me off
But try to reach a vital part of me My interest level's dropping rapidly

It's all excuses baby all a stall I just don't get excited
I've been running round in circles and jump jump jumping out of cars

They put animals in cages specimens in jars
It's summer now there's no temptation and baby nails digging under skin
It don't give me the right sensation it's just another thing
You try to reach a vital part of me My attention span is dropping rapidly

It's all excuses baby all a stall We just don't get excited
Don't get excited No Don't get excited Don't get excited

Talk about it talk about it all night long
Think about it think about it nothing's wrong
Don't get excited Don't get excited Don't get excited
Don't get excited Don't get excited Don't get excited Don't get excited

Baby listen without thinking you better be without demands
Now don't get edgy and don't start blinking and don't start making any plans
You try to reach a vital part of me My interest level's dropping rapidly
It's all excuses baby all a stall We just don't get excited
Don't get excited No don't get excited Don't get excited
