

# Head On Straight

Graham Parker

I had my day in the sun  
Then it rained every day  
Every day was no fun  
But things are looking up of late  
Now I got my head on straight

I had my week in the news  
But now I'm old news now  
I'm not the news they choose  
But things are looking up of late  
Since I got my head on straight

You put that sugar in my cup  
And that just stirred my spirits up  
You took that monkey off my back  
And now my train is back on track  
Oh yeah!

I spent my year on the roof  
Staring up at the stars  
Wondering if I was from mars  
But things are looking up of late  
Now I got my head on straight

You put that sugar in my cup  
And that just stirred my spirits up  
You took that monkey off my back  
And now my train is back on track  
Oh yeah!

I lost it all in the crash  
I lost everything  
I lost all my cash  
But things are looking up of late  
Now I got my head on straight  
But things are looking up of late  
Now I got my head on straight
