

# Hotel Chambermaid

Graham Parker

When the lights are low you know I'm going to go to my hotel chambermaid

I'm going to jump the garden and come on hard all right

While the river's rolling outside the window

Going to see her going to get love

Going to shut the bellboy out tonight

When the world is dead I'm going to make the bed with that hotel chambermaid

She'll bring the coffee in the morning with a smile

She don't ask me where I come from

I crept in and I soon be done

I just want to hide here for a while

I ain't got a million dollars, no-one I can call mine

But I'll push on cushion me in some way

Ain't got no future at least that's what they say

This girl is going to take those kind of blues away for a day yeah

Uh uh uh uh uh hotel chambermaid hotel chambermaid

Room service can you help me I want a hotel chambermaid

I didn't pay my bill but I had my fill all right

While the river's rolling outside the window

Going to see her going to get love

Going to shut the bellboy out tonight

While the river's rolling outside the window

Going to see her going to get love

Going to shut the bellboy out tonight (3 times)
