

## Morning Dew

Grailknights

[Chorus:]

Welcome to tha age of rising terror  
Welcome to the time of damp, smoke and steam  
The future is near, the future is here  
A flash lights up the nocturnal sky  
Brothers we sail the deep blue sea  
To flee from a life full of misery  
Liquid pearis of morning dew  
Will glisten in silver  
When the sun breaks through  
We dance, we sing, we laugh and cheer  
We raise our pints and forget our woes  
Come my brother, come my friend  
All bad times must reach an end  
Tomorrow the sun will shine for us  
The wind is right to leave this land  
"Men stand up and be at hand"  
Get your goods an chattels out  
We turn our backs to dust and drought

[Pre-Chorus:]

We dance, we sing, we love and cheer  
Fave the wind, taste the sald  
Feeld the breeze, there's no halt  
Tomorrow the sun will shine for us  
The clouds turn to black  
The heat is up  
The night comes back  
Our life is on the edge  
Of the abyss of righteousnedd

[Chorus]

The opaque shimmer of a distant shore  
The tune of life and ancient lore  
The coast is near our place to dwell  
Well tanked up and straight to hell

[Pre-Chorus]

[Chorus]

Morning dew is reflecting the fire  
As it devours our wishes and hopes  
Never give up, never give in  
Sons and daughters stand the pace
