

Shadow of the Mountain

Grailknights

Legions of evil hunting the brave
Seek for a spirit to frown
Devour the light of the last breathing one
Shatter their souls on the ground

Attack as the only way to defend
Strengthening armour is here
The crucification of evil will start
The moment we're facing our fear

Call to arms
Follow me

Don't be afraid of what you might regret
Stand by your men until the enemy is dead
Clash your sword and go for the win
Follow me down into the shadow of the mountain

Darker and darker the bleak hills arise
The tension is not to endure
Screaming and shouting - ambush the lives
That life is not worth living for

Arrows of fire flash up the sky
As hundreds of feet quake the fields
Roaring and screaming of those who will die
Get drowned when the blade hits the shields

Call to arms
Follow me

Don't be afraid of what you might regret
Stand by your men until the enemy is dead
Clash your sword and go for the win
Follow me down into the shadow of the mountain

Where your future is lost and you cannot break free
Where you're hold against the evil arch enemy
The eternal fight will never come to an end
You can never escape from the shadow of the mountain
