

Fall Down

Grave Declaration

I am cold, I am snow, I am all dead
Spirit autopilot has taken over instead

Needless bleeding consoles my soul,
Makes me think I am alive
Truth be told, the frost goes deep through
My skin flesh and blood.

Shake me Lord, bring Your fire, defrost my heart,
And in fear of what I have become, I see no choice
But to storm Your gates, find Your throne and

Fall down, bow down, to the ground, fall down.

Silent falling in submission while understanding
I was given my free will to be able to serve
The King of all kings

Down cast soul of mine, rise and move to the
Sound of our God restoring the broken pieces
Inside, mercy comes, mercy stays, He won't let mercy
Fade away. And along with the angels I will scream
Out of passion, may you be glorified, we...

Fall down, bow down, to the ground, fall down.

Break off the lies that tear apart
My mind and root me in truth
My god, I am all dependent on you.

Needless bleeding consoles my soul,
Makes me think I am alive
Truth be told, the frost goes deep through
My skin flesh and blood.

Down cast soul of mine, rise and move to the
Sound of our God restoring the broken pieces
Inside, mercy comes, mercy stays, He won't let mercy
Fade away. And along with the angels I will scream
Out of passion, may you be glorified, we...

Fall down, bow down, to the ground, fall down.
