Cry For Freedom

Grave Digger

My king won another crown - for Scotland's pride
That is what we thought but we were not right
Now he rules in London - a faceless king
Sold his ancient kingdom to the enemy
Five laws
You gave at Perth
Betray the rights
We gained by birth

Cry,cry,cry,cry for freedom

The heritage of centuries - you did betray

The blood of Bruce flowing in your vains

How could you give away - what Braveheart died for

Freedom may be lost now and forever more

You gain a crown

We pay the price

You think you rule

But we will rise
