## Love Is Breaking My Heart

**Grave Digger** 

Shadows on the wall Cold as ice Snd you break my heart Too many times I don't wanna lose you You passing by I can't live without you In the night I just can't forget you But love still the done No will tomorrow When you go Love is breaking my heart Running sips so strange Selled to the gone You left my feelings For behind Alone in my deep dreams Deep in my mind I feel your poison Makes me blind
