

# Hell's Creation

Graveworm

I made the world suffer in hell  
Devour the soul of light  
I am the sign, blood of revenge  
Spirit of the black servants of death  
Slaughter of the weak  
Diabolical son of pleasure

I saw demons  
I feel blood  
I saw legions

I saw the world burn in hell  
I saw demons call from grave  
I saw blood all over me  
I saw legions marching through  
Take my knife in your heart  
Feel the pain in your mind  
Slowly death is my love  
I am hell's creation son

Follow the traces of blood  
throughout the world  
Chose the way of pain for hopeless souls  
Facing their false god  
again and again in the dark  
Living in fear and pain, creation of hell

Full of anger they will die  
Imprisoned by my evil sins  
Hatred sign - will they see  
Fill a monstrous mask of blood  
Days of darkness, they will fell  
Desperate cries pierce the air  
Isolation, they will cross  
Hell's creation, they will die

Hell's creation - mutilate by knife  
Hell's creation - consume to insane

From beyond death I rise in furious hate  
Pray for the new aeon of (the) beast
