

# When the Sky Turns Black

Graveworm

Eyes of pain - eyes of death  
Death has come - life is gone  
Humanity in the sphere of death  
The world falls down...  
When the sky turns black  
When the sky turns black - black

Desperate cry (in the) infinity of life  
The world destroyed by humynity itself  
Life ended as the world falls down  
The death is the door of life

God forgot their mistakes of life  
The nature burn in time  
Heaven fall silent down  
The world went black when the war...

Death is the way  
You find the life  
Your mind will die  
And you will cry

Your god shout down  
The punish of time  
The angel of death  
Will now become

Seeing days like the time of eternal night  
The world burns now the end of life has come for me  
Insanity, infinity in this life of pain  
Flames of sorrow deepest hate destroyed the life

Stand alone in the night  
Sorrow in your mind  
Tears in your eyes  
Destroy your inner faith  
Faces of death before your mind  
Insanity for all the time  
God will cry for your soul  
Your heart is seeing black  
Heaven of love is waiting you  
Let us fly to the sky  
End of life for every soul
