

# Where Angels Do Not Fly

Graveworm

Tear down the walls  
Wake up the death  
I've chosen to suffer  
The level of soulless life

Hiding behind (the veil)  
Leader of the chosen one  
Fed up the nightmare  
Spreading their disease

Summon the beast  
Call loud out his name  
Starring eyes of the death  
Where angels do not fly

Behind the gates of hell  
Fooling the blind  
Crawling the dark  
Hold your breath when I die

Follow the traces  
Living on your knees  
Feeling the fears  
Again and again

Cold as the world around  
Reach the field  
Of rotten souls  
Watching the  
Frozen pain  
In search of souls inside  
An ancient force of might  
Where angels do not fly

The land where I was strong  
Where creatures come and go  
Watching the frozen pain  
In search of souls inside  
An ancient force of might  
Where angels do not fly

Autumn still cries  
Whispers around  
Unleash the beast  
Obscure the light

Flee from the void  
Unveil the death  
Is heard from above

Angels cry before they die

Hiding behind (the veil)  
Leader of the chosen one  
Fed up the nightmare  
Spreading their disease

Summon the beast  
Call loud out his name  
Starring eyes of the death  
Where angels do not fly
