

# Don't Take Us for Fools

Graveyard

Distracting our minds  
Make us all feel we're fine  
Changing our ways and make us feel less  
Cause you're using your brains  
And you're using our homes  
To make us lose our senses in useless things

Money for reason  
Is not in your head  
More isn't enough  
Just gaining wealth  
We're calling you treason  
You make us feel lead  
You think we're just glad we're all having our health

Sometimes,  
We got to get up,  
And break down the system,  
That's keeping us down

Play that god that we all should serve  
Your gold is our souls  
And it's tearing up holes  
Why is our loved ones  
Stuck in your madness  
Try to get away when we open our eyes

Sometimes,  
We got to get up,  
And break down the system,  
That's keeping us down

Sometimes,  
We got to wake up,  
And realize that this isn't right

What makes you think that  
You have the right  
To impoverish the suns  
That we all should share

Because who was  
Who were the first  
To put up fences  
And claim land for their own

Sometimes,  
We got to get up,  
And break down the system,  
That's keeping us down

Sometimes,  
We got to wake up,  
And realize that this isn't right

You take us for fools  
But what do you see?

Cause the way that you rule  
Is just tyranny

You take us for fools
