

Feel It Turn

Great Big Sea

I had a dream I was moving forward, floating gently to the sun
I've come to see my world rewarded, a new day has begun
A lost bird caught in mid-migration, far away to a foreign land
Offspring of a secret nation, a new day has begun.

R: I can see the earth below me
And I can
Feel it turn (4x)

Fog lifts to reveal potential,
For generations prophesised
Our growth to be exponential,
Our promise is finally realized

R: I can see...

Feel it turn
Across the sky
The world it learns
So must I

Cut steel wired into water
Fixed link, circumnavigate
Old men see your sons and daughters
No longer, no longer hesitate

R: I can see...
