Put the coffee on, call you in from the cold  
If you get lost they'll show you where to go  
Even give you a ride... good people

Down and out, not a penny to spend

4. Rich and poor, we're born to be free  
Fly around the world or sail the seven seas  
But there's no place I would rather be  
Than here right now with good people

R: Good People... (2x)

5. The world today can be a scary place  
Hard to keep your faith in the human race  
We're running out of trees and were running out of space  
But we'll never run out of good people
