

# Let It Go

## Great Big Sea

- G      Dsus4                  C                          Dsus4**
1. Hey man, you don't know what you're missing  
You count your curses and forget about the blessings  
Don't you think you should learn a little lesson  
**C**  
What are you waiting for?
2. Hey man, what makes you so special  
Can't seem to find the angels and the devils  
Don't you think that if you learned to love a little  
You'd live a whole lot more
- G                  C**
- R: Let it go let it go  
**G                          C**  
This is smaller than you know  
**G                          C                  D      Dsus4**  
It's no bigger than a pebble lying on a gravel road  
**C                  G**  
Let it go let it go  
**C                          G**  
Got to leave it all behind you  
**C                          D      Dsus4**  
Give the sun a chance to find you  
**G**  
Let it go
3. Hey man, there's no time for crying now  
You made your bed but you don't think its fit to lie in  
You're wasted on the ground when you know you should be flying  
What are you waiting for?
- R: Let it go let it go...
- Am7**
- \*: How can a man not see  
**Em7**  
It seems so clear to me  
**C    Dsus4**  
That you've just got to live and learn  
**G**  
Smile at the simple stuff  
**C**  
This road ain't long enough  
**Dsus4   D                          C**  
To miss a single turn
- R: Let it go let it go...
